

# Kersey Community Park Master Plan & Aerial Perspective

## Conceptual Master Plan

Kersey Community Park will provide diverse and useful recreation space for residents of all ages. The multi-purpose lawn is large enough to accommodate a regulation soccer and football field. While a large amphitheater ringed with flowering crabapples is the centerpiece of the park, and the green space serves as overflow seating for music events and town festivals such as Kersey Days. Several picnic shelters provide space for gatherings of all sizes, large and small. The playground is situated within easy walking distance to the parking lot and is within sight of watching parents sitting under the large pavilion. Lastly, the skate park provides an activity space for Kersey teenagers.
